ABOUT US

It's more than just a shed, it's our passion!

For almost 20 years, Spinifex Sheds has been the go-to choice for individuals looking for high-quality steel sheds that will stand the test of time. Our journey began with a simple mission: to make the purchase and construction of a new shed easy and hassle-free.

Here at Spinifex Sheds, we provide a seamless project experience. We are licensed Registered Builders and will manage your entire project for you. Included in your quote is a start-to-finish approach; we will obtain the shire approvals, organise the concreters and arrange for the construction of your new shed.

We take pride in our partnership with Ranbuild, a premier supplier of sheds in Australia with a rich history of serving customers for over 70 years.

Supported by BlueScope, the foremost steel manufacturer in Australia, this collaboration ensures we deliver only the highest quality sheds to our clients.

Being backed by BlueScope means our sheds are made with 100% Australian materials that surpass Australian compliance standards and can cope with harsh conditions. This promise is supported by a 20-year warranty, ensuring longevity and durability when you choose a Spinifex shed.

Choose Spinifex Sheds and embark on a journey to see your dream shed come to life, crafted with precision, care, and a commitment to excellence.

Why Spinifex?

At Spinifex Sheds, we're different. We don't just sell you the shed kit and send you on your way, we will manage the entire project from start to finish so you don't have to worry. Our goal is to make sure your shed build experience is a positive one.

Highest Quality

Backed by Ranbuild and Bluescope Steel, we offer you the highest quality steel, guaranteed to be 100% Australian made.

Fully Customisable

We want to bring your vision to life! With a wide range of options to choose from for residential projects, our options are fully customisable to suit your individual needs.

Hassle Free

We're more than just a shed builder. We're with you every step of the way, from design to construction and cleanup. We can even do your shire application for you!

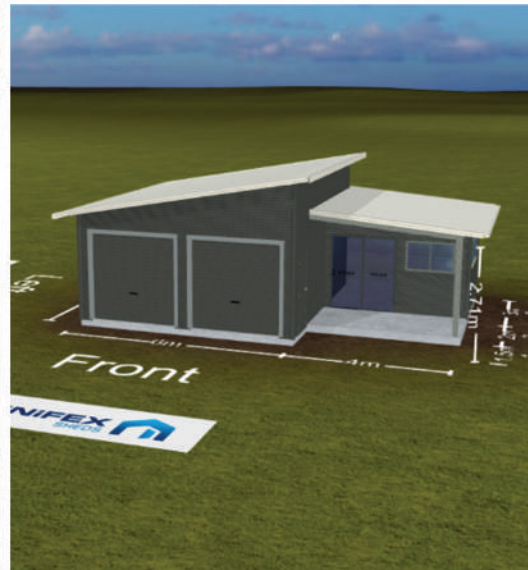

Construction Background

With over 20 years of experience, Spinifex Sheds are WA's premier shed experts certified as Registered Builders. When you build with us, you build with confidence.

20 Years Warranty

Get your shed warranty pre-approved with BlueScope up to 20 years and enjoy peace of mind.

Design Your Dream Shed

With our online 3D shed builder, you can design and customise your dream shed, and get a quote with just a few clicks!

Our Hassle Free Process

is focused on making the experience enjoyable and stress-free

Detailed quote and expert advice

Once we've got an idea of what you're looking for and provided a provisional quote, we can come out and conduct a site visit to confirm the design and scope of your project. We will help you decide which shed is right for you and your property and answer any questions you may have. If you require design and planning assistance, this generally takes between 5 to 15 business days.

Ensure you have council/shire approvals

When building and installing a shed on your property, you'll generally require approval from your local council or shire. Our friendly staff will take care of the application process before the building phase begins. This process can take anywhere from 1 month for a standard building permit, to 3-5 months for those requiring additional approvals.

Shed fabrication and concrete pour

Once your council applications are approved, we can move to the next stage of your project. At this stage, we will confirm the colours you would like for your shed and manufacturing will begin. During this process, we will prepare the sand pad and lay the concrete to allow for curing before construction begins.

Building

Our team of installers all have specialised shed-building experience, ensuring that your shed is constructed with the highest level of care and expertise. Thanks to the skills and craftsmanship of our experienced team, your installation process will be seamless, taking between 1 to 2 weeks.

Clean up

We have a "pack it in, pack it out" mentality at Spinifex. Our concreters and installers will remove all shed-related rubbish so you are free to put the finishing touches on your project.

***Note: these timeframes are based on a normal process. Actual timeframes may differ.**

Domestic Range

With strength, durability, and endless design options, our residential sheds, garages, carports, or hybrid combinations cater to a variety of needs, from simple storage solutions to versatile at-home workshops or protecting valuable assets. Built to withstand the test of time and weather, our residential sheds offer peace of mind and long-term reliability for homeowners across Western Australia.

Residential Sheds

When our clients first call, they often say they “just need a garden shed”. But most of the time, it’s so much more than that. Whether you need extra storage, a workshop, a home office or a customised space, our shed experts can run you through all the options available to make sure you get a durable, workable, stylish solution that perfectly complements your home.

Garage Sheds

Whether you need additional storage, a secure spot for your vehicle or boat, or a dedicated area for your tools, our selection of high-quality garage sheds spans from essential single and double garages to expansive triple car garages.

Rural Range

Our diverse range of rural sheds are 100% Australian made and built to ensure you're left with a sturdy and reliable structure that can handle Australia's conditions.

Machinery & Storage Sheds

We understand the importance of practicality and having the right storage solution for your environment. Whether you need a high-clearance shed, a wide-span shed, or a large open shed, we can help build the right shed for you.

Barns

Our range of barns are designed to meet the diverse needs of rural and residential customers alike. Whether you're looking to store equipment or create the perfect workshop our barns are adaptable and functional to work for you! Our barns feature customisable options for roofing, layout, and accessories, ensuring that you get a structure that is perfect for your needs.

Specialised Range

Custom Sheds

What sets Spinifex Sheds apart is our modular design system, which allows you to tailor every aspect of your shed to your exact specifications. From choosing the span and roof pitch to determining bay size, door styles, window placement, and accessory options, you have the flexibility to create a shed that perfectly suits your needs and aesthetic preferences.

Our custom sheds can be made for almost any requirement. Whether you're looking for a compact storage space or a fully-equipped workshop, our customisable designs ensure that your shed is not only functional but also reflects your personal style and vision!

Fire-Resistant Sheds

If your property is in a bushfire-prone area, you must adhere to the Building Code of Australia's Bushfire Attack Level (BAL) requirements. These regulations ensure that any shed constructed in these high-risk zones is built to withstand potential bushfires. At Spinifex Sheds, we'll help you understand what BAL your shed needs to comply with and ensure the shed we build will protect your assets in case a bushfire occurs.

Obscure Shapes

Whether you need a tapered wall to match a funny boundary or want to maximise the usable space, we can fully customise your design to a range of shapes and angles to ensure maximum usability and functionality. Our unique solutions are crafted with precision to seamlessly integrate with any environment, offering both practicality and aesthetic appeal.

Optional Extras

At Spinifex Sheds, we're different. We offer fully customisable solutions and a bunch of optional extras that allow you to have the shed you've been dreaming of.

Roller Doors

Choose from a range of roller doors for your shed. This range can suit all applications; domestic, industrial, cyclonic wind-locked roller doors, and more

Windows & Glass Panels

Select from a range of windows and glass sliding doors to suit your needs and style. You can customise the size, placement, and more.

Roofing Accessories

We offer accessories to add to your roof such as a polycarbonate skylight for some extra natural light. You can also add a roof ventilator to keep the air inside your shed fresh.

Sheeting and Finishes

COLORBOND® steel sheeting and finishes are available in a range of 22 modern shades that pay tribute to Australia's beautiful outdoor scenery.

Insulation

Proper insulation is important for temperature regulation, noise reduction, energy efficiency, and moisture protection.

Awnings & Annexes

Improve the functionality and style of your shed by customising with our range of awnings and annexes

Vermin Sealing

While this option can be forgotten, protecting your shed from vermin is important to maintain the structural integrity and longevity of your shed.

PA Doors

Enhance the security of your shed with PA doors for convenient individual entry and exit without the need to open the main doors.

TESTIMONIALS

Don't Take It From Us, Take It From Our Customers!

"Wow, wow, wow! Simon, you, and your team, let's just say you are your business! As soon as I spoke with you, I knew you were quality and experience all the way. It's not our first rodeo and you jumped through all our hoops. We are fanatical about our toys and you understanding that eased our minds at every step of the way. And Jess, she's bloody awesome too! You and your team have consistently shown attention to details and answered our million concerns that I didn't even need to be concerned about. We cannot recommend these guys and their amazing contractors highly enough. A huge thanks to Simon and Jess at Spinifex Sheds."

Tracey Tate, March 2024

"We selected Spinifex Sheds to supply and build our 7x9m garage and are very happy with the final product. Simon, Jess and the team were very helpful and responded promptly to any queries we had, and really went the extra mile to make sure everything was sorted promptly. They also took care of all of the council approvals which made things much easier for us. All of the contractors they used for the build performed quality work and were great to deal with. I highly recommend Spinifex Sheds!"

Kristian Adams, May 2024

"Very impressed with the whole process in getting my shed, from the design stages right through to completion. The team at Spinifex Sheds was flexible in scheduling when hiccups (weather & site access) came up, and I was very impressed with the workmanship of the concreting and installing teams that delivered the finished product! Would recommend them to anyone."

Cory Van Dijk, January 2024

Choose Spinifex Sheds! It's more than just a shed to us, it's our passion.

Design Your Own Shed On the Spinifex Sheds app

Want to see how your shed might look before it's actually built? The Spinifex Sheds app allows you to create and customise your own shed or garage in 3D. You can save your shed at any time and once you're done, send it off to us and we'll give you an obligation-free quote..
